## The motivation letter.

Dear Ms.,

Find a creative, strong, problem solving skills, teamwork mentality, people skills. These requirements apply me.

I have good experience in the field of account, organization, customer relationship management, 6 months for sales in Jeunesse Global International(MLM) and strong computer skills as Python, C++,SQL, Java and Machine Learning (Self-Taught), JavaScript ES6 framework Angular js little bit, Node js.

My qualities are fidelity and self-determination. I am excited to learn new things. For me, this Includes teamwork mentality, negotiation skills and goal-oriented work. My journey in Network Marketing Jeunesse Global International, it provides me full confident about the sales skills, teamwork, self-motivation and entrepreneurial mentality.

A team work, problem solving skills, people skills and entrepreneurial mentality could bring your company into next level.

The Espace-Entreprise in Geneva, I was student of the business school in Geneva. The Espace-Entreprise is the place where the students from all around the business school in Geneva. They should give a jobs experience in jobs market especially in business field.

My passion is on the computer things such as computer language Python, C++, Java, JavaScript, Machine-Learning I have some experienced in Financial market as stock market Micro, Marco. I have some good knowledge in data science and Machine learning. And also I had some experience in Cryptocurrency and Blockchaine Technology.

Now I am working in IOT company in Zurich. My position is Test engineer and testing the software and hardware. I write all script in Python language. This startup company is build products as home light, door bells, home temperature sensors, cooling sensors. My job is to collected all data from sensors into databases. Then we are analyzing the data by using the python library as pandas and matplotlib, and Machine learning Algorithm etc.

I would be happy to provide you with a personal interview with you about my abilities, and I would be happy to answer any questions you may have.

Yours faithfully,  
Tenzin Lehpel CHABDELTSANG
